ALLIANCE

FROM PAGE 1

The Waldwick Community Alliance is a registered non-profit, making it eligible to accept donations.

The eventual cost of restoring the station building alone has been estimated at \$500,000 to \$600,000.

According to Corbett, New Jersey Transit has agreed to turn over the building to the Alliance, pending approval from the Historic Preservation Office.

Regulations on the use of historic places will dictate the course of the restoration down to the materials to be used in the process, Corbett said.

"They tell us it's going to be a can of worms to renovate that place," he said. "Everything has to be done with materials from that era."

The building's historic designation may also limit its possible uses to those of a non-profit nature. Alliance members have discussed converting the station's interior into a museum, meeting place or old-fashioned convenience store.
